## Why Choose Streffie?

### AI-Powered Accuracy

Convolutional Neural Network based with 80-90% accuracy

### Multimodal Data Integration

Real-time stress analysis with facial recognition and user data

### Accessibility

Seamlessly monitors employee stress anytime, anywhere

### Instant Insights

AI emotional analysis boosts employee well-being and productivity.

## How Streffie Works

### Redefining the Stress Management Landscape:

From Awareness to Action. Leveraging the power of Convolutional Neural Network (CNN).

#### 1. What Does Your Face Say? - Actual Stress

Streffie's AI goes beyond subjective interpretation, analyzing 68 facial landmarks for objective, real-time stress measurement and actionable insights.

#### 2. How Are You Feeling? - Perceived Stress

Streffie goes beyond facial recognition, incorporating your input about your emotional state for deeper insights.

#### 3. What Is Your Life Circumstances? - Measured Stress

Streffie's self-assessments and psychometric evaluations identify the unique challenges impacting your stress levels.

Streffie is available on mobile and web for individuals, and via kiosk for organizations.
